Executive Education

Developed, organized and chaired the International Finance Advisory Board at the University of Georgia. The first program developed by the board, in 1992, was titled "Measuring and Managing Foreign Exchange Rate Risk." I was the director and participated as a speaker on "Exchange Rates and Types of Exposure" and directed subsequent conferences in 1993,1994, 1995, 1996, and 1997: "The Role of Treasury in Financial Risk Management," (1993) and Derivatives: Uses and Abuses," (1994), "How Corporate Treasury Can Add Value in a Volatile Foreign Exchange and Interest Rate Environment," (1995), "Risk Reduction and Beyond "(1996) and "Preparing Corporates for Change," (1997). I also developed and had major teaching responsibility in a Portfolio Analysis course for the Confederation Life Insurance Company (Canadian) in 1993.

Foreign Courses, Training Programs and Seminars

I have been an instructor in a number of seminars and courses in Europe. The seminars/courses in Lyon, France and in Innsbruck, Austria were given in English with no translation necessary. The training courses in Bratislava, Moldova, Lodz, and Varna was in English and required the use of translators. The Bratislava and Moldova courses were funded by USAID and administered by the Barents Group, a subsidiary of KPMG LLP. These courses were carefully structured with manuals, problem sets, and visual aids. As part of my presentations, I used a laptop and a LCD panel to give dynamic examples. The participants were local bankers, dealers, brokers, and investment professionals. The specifics are:
