http://www.auburn.edu/student_info/student_policies/

Course Text: **Evolution of International Aviation; Phoenix Rising**, 2nd Edition
by Dawna L. Rhoades

Course Description:

Global Air Transportation Management traces the economic development of international air transportation from its beginnings to the present day and then goes on to consider what the future may hold (The Aerospace Professional). This text will provide the student with insight into the wide range of international aviation issues.
